

 **Irish Boat Builders Chair**
seats for every voyage.
by Brendan Lawless

The **Irish Boat Builders Chair**, based on an 1830's design, is hand-made using traditional time-honoured techniques by Irish furniture maker Brendan Lawless . Each chair is made by hand in Brendan's workshop in his native County Wicklow, Ireland.

The ribs are steam-bent, a technique still used by boat-builders today to add strength to wood. Each chair is made to order and available for you to choose from a selection of woods - walnut red oak or ash. They can be hand finished any colour or with a distressed finish as you desire. The authentic collection is the perfect gift or purchase to mark or celebrate the many voyages in our lives.

Dimensions
93cm H x 56cm W x 52cm D
45 cm to seat. 72 cm to top of arms.
